Dear Mr. Ruch:

This letter responds to your Freedom of Information Act (FOIA) request of November 1, 2018 in which you seek:

- 1) Documents describing Tetra Tech involvement in radiological assessment/remediation of areas of Treasure Island;
- 2) Documents and communications related to the sufficiency of prior radiological assessment and remediation work performed by any Tetra Tech entity, including Tetra Tech EC, at Treasure Island;
- 3) All documents and communications assessing the potential for fraudulent radiological cleanup work to have been conducted at Treasure Island by Tetra Tech or other contractors and the Navy's investigation of that potential;
- 4) Documents and communications supporting any decision not to review the prior Tetra Tech radiological work at Treasure Island;
- 5) All documents and communications among BRAC personnel and between BRAC and RASO (Navy Radiological Affairs Support Office) regarding whether Tetra Tech workers involved in fraudulent radiological work at Hunter's Point Naval Shipyard had performed radiological work at Treasure Island; and
- 6) Documents relied upon or supporting, the statement by BRAC Program Director Laura Duchnak at the May 14, 2018 hearing on Hunter's Point before the San Francisco Board of Supervisors that the Navy has no information that any Tetra Tech workers involved in the fraud at Hunter's Point conducted radiological work at Treasure Island.

Your request was received by this office on November 19, 2018 and assigned file number DON-Navy-2019-002006. A partial group of responsive records were provided to you on March 28, April 9, May 15, June 26 and September 10, 2019.
